[In computing the increase from 1890 to 1900 for certain counties, the population of Indian reservations in 1900 has been deducted from the total population of the county in order to make it comparable with the total for 1890, which does not include the population of Indian reservations. The population thus deducted for the several counties was as follows: Humboldt, 1,112; Mendocino, 599; San Diego, 817; Tulare, 143.]
